

## Altimune Announces Oral Presentation of Pemvidutide Clinical Data in Treatment of NAFLD at Upcoming EASL International Liver Congress™ 2023

June 15, 2023

*Presentation Selected for Best of EASL Summary Slides*

*Altimune to Host a NASH KOL and Investor Reception on June 22, 2023*

GAITHERSBURG, Md., June 15, 2023 (GLOBE NEWSWIRE) -- Altimune, Inc. (Nasdaq: ALT), a clinical-stage biopharmaceutical company, today announced that Dr. Stephen A. Harrison, Medical Director, Pinnacle Clinical Research and Adjunct Professor of Medicine, Oxford University, will present the results of its 24-week clinical trial of pemvidutide in the treatment of non-alcoholic fatty liver disease (NAFLD) in an oral presentation at the EASL International Liver Congress™ 2023 in Vienna, Austria. Pemvidutide is a novel, investigational, peptide-based GLP-1/glucagon dual receptor agonist in development for the treatment of obesity and non-alcohol steatohepatitis (NASH).

Details for the oral presentation are as follows:

<b>Title:</b>	Pemvidutide, a GLP-1/Glucagon Dual Receptor Agonist, Significantly Reduces Liver Fat, Fibro-inflammation, and Body Weight in Patients with Non-alcoholic Fatty Liver Disease: a 24-week Multicenter, Randomized, Double-blind, Placebo-controlled Trial (Presentation ID OS-063)
<b>Presenter:</b>	Stephen A. Harrison, M.D., Medical Director, Pinnacle Clinical Research and Adjunct Professor of Medicine, Oxford University
<b>Date/Time:</b>	Friday, June 23, 2023, at 8:30 am CEST

### Best of EASL Summary Slide Deck

Dr. Harrison's presentation was selected for the Best of EASL Summary Slides, a compendium highlighting the most noteworthy contributions to the 2023 EASL program. A copy of the presentation will be accessible on the [Events](#) section of the Altimune website.

### NASH KOL and Investor Reception

Altimune will host a reception in Vienna for NASH KOLs and investors on Thursday, June 22 at 6:30 PM CEST. Please click [here](#) if you are interested in attending the reception and to receive additional details.

### About Altimune

Altimune is a clinical-stage biopharmaceutical company focused on developing innovative next-generation therapeutics for the treatment of patients with liver diseases and obesity. The Company's lead product candidate, pemvidutide, is a GLP-1/glucagon dual receptor agonist that is being developed for the treatment of obesity and NASH. In addition, Altimune is developing HepTcell™, an immunotherapeutic designed to achieve a functional cure for chronic hepatitis B.
